ALEX TIDEMAN

Why Me?

I love building engaging, practical software that people want to use. Every new problem is an opportunity to improve and learn, and I cherish the thrill of tackling issues within a team or individually. I am eager to find new ways technology can improve my community and support others to achieve success. I aspire to continue to grow my technical Rails and Javascript skills, mentor others to become web developers and passionately pursue opportunities to use my problem solving skills to help others.

ALEX'S SKILLS INCLUDE:

- Ruby on Rails, Javascript, jQuery, RESTful design, TDD, Bootstrap/Materialize/Foundation
- ScrumMaster Certified and agile methodologies expert
- Highly effective executive communicator
- Documentation and testing of detailed business and technical requirements

Portfolio

Effortful   *be-effortful.herokuapp.com*
Web application that promotes positive behavior and community improvement, utilizes What3Words API.
Collector's World   *the-pivot.herokuapp.com*
Auction based e-commerce web application for collectables, text message notifications with bid status and results.
Endangerous Outfitters   *endangerousoutfitters.herokuapp.com*
E-commerce web application for exotic and adventurous trips, integrated with Google Maps.
Abby Sparks Designs   *abbysparks.com*
Custom engagement rings and jewelry e-commerce web site.

Experience

Breo Solutions   Sept. 2012 – Present
As a Senior Consultant, I directed several large software implementations to success as a Project Manager in the real estate, healthcare and public education industries. Projects include Business Diversity Goals Program and Reporting, lease analysis web application and workflow and Epic implementations across multiple states and hospitals. Key aspects of the role were agile team lead, executive communications, vendor selection for software products, business analytics reporting and process improvement.

Accenture   Aug. 2011 – Sept. 2012
As a Junior Software Engineer, I was part of an international team testing SAP Point of Sale Data Management modules for a large retail company.

Education and Other Qualifications

Turing School of Software and Design   Nov. 2015
University of Minnesota - B.S. in Mathematics   Dec. 2010
Scrum Alliance - Certified ScrumMaster®   Present
